### WHY PREKSHA ACADEMY?

- ❖ Finite numbers; individual attention.
- ❖ Passionate and experienced teachers.
- ❖ Regular assessments through tests & worksheets.
- ❖ Timely updates on the happenings via SMS, emails & WhatsApp.
- ❖ Dedicated sessions for practice and clarifications of queries.
- ❖ Consistent Parent-Teacher interactions to keep a check on the student's progress.
- ❖ An environment that enhances learning and promotes a holistic growth of the individual.

LEARNERS TODAY...

LEADERS TOMORROW!

## ABOUT US:

A young mind, that aspires to achieve beyond the normal, strives hard to excel and persistently craves for knowledge – demands to be nurtured and moulded in order to take on the challenges that life has to offer them.

We at *Preksha Academy* consider it our privilege to be a part of this journey with the raw talent, redefining their understanding and approach towards education. Founded in 2015, our journey started with a handful of students and just 2 teaching faculty running the entire show. With the persistent efforts fueled by their passion, we have been successful in delivering an un-paralleled level of excellence and satisfaction. Today, *Preksha* stands tall with over 100 students and 10s of active faculty spread across branches; with the same zeal and dedication! Within a short period of its establishment *Preksha Academy* was able to earn for itself an enviable reputation in Vijayanagar Area. It has been successful in winning the confidence of both – the students and their parents. The institute owes its rapid yet organic success to the brilliant set of teachers on one hand and the dynamic management with vision and understanding on the other. *Preksha's* aim remains undeterred, to guide students with respect to academics with an equal importance to moral values of life and aid them in sketching out their career plans.

## RULES AND REGULATIONS:

*Following are the list of Rules & Regulations to be adhered to by the students,*

- At *Preksha*...
  - Discipline is of utmost importance and is to be strictly maintained at all times.
  - The scheduled classes (regular & exclusive) must be duly attended.
  - Use of cell phones are prohibited inside the premises and the device must be kept on silent/ vibrate mode while in a class.
- Planned / Un-Planned Leaves...
  - Any student who fails to attend any class/ test/ worksheet citing emergencies, shall submit a leave note duly signed by the parent/ guardian before attending the next scheduled class; without which the student will not be permitted for the same.
  - In case of a planned leave(s), the same must be communicated to the respective faculty and the Director well in advance, seeking their consent; failing which the student will not be permitted to attend any further classes until the parent/ guardian communicates the same.
- On a general note...
  - Parents/ Guardians are requested to keep in touch with the Director and respective faculty to facilitate monitoring of the student's progress.
  - Students are expected to be diligent, consistent and hard-working. They are encouraged to maintain a cordial relationship with the teachers and are free to approach them with any hiccups they face with academics.

## MESSAGE FROM OUR TEACHERS:

We firmly believe that each student at *Preksha* are unique and have their own set of strengths & weaknesses. Amidst the incessant contest of winning over peers, the real competition to be paid heed to is the one with their own self. Taking one step at a time and bettering ourselves consistently takes us a long way. Just like how the little drops of water make up the mighty ocean, even the simplest of efforts in the right direction can make a huge difference at the finish line... and remember, along the way – every second counts!

## MESSAGE FROM DIRECTOR:

### RISHABH BARDIA

In this digital era where information is just a keystroke away, we might tend to wonder as to what purpose does a formal education actually serve? From a basic mathematical formula to the symptoms of a life-threatening disease, if one can have a simple web search return valuable information on the same, why do we need teachers after all? – *Information, just like water in the sea, is in plenty. But the skill to pick up what is required and the intellect to build on it, can be gained only through education!*

Over the years, we at *Preksha* have imbibed this particular quality of 'Excellence' into our system and have staunchly practiced the same. With each step we take and every move we make, we strive hard for excellence. At *Preksha*, a classroom is more than just blackboards and chairs, enclosed within the four walls. It is a space where the young minds get to interact with the seasoned experts, learning and exploring the subjects from a fresh perspective.

Being a passionate teacher myself and having my own share of topics to be handled, I have actively engaged with students from time to time – only to be fascinated by the young minds on every occasion. Their inquisitiveness and hunger for knowledge instills enthusiasm in every teacher and drives them to do better. However, the teachers play the second most important role, only next to the parents in shaping a child's future. With the right company and proper guidance, there is no goal that is beyond reach!

I was once told that success is no accident. It is in-fact a cumulative result of hard work beyond one's imagination, an unwavering perseverance, a journey through the learning curve that never ceases, a fair bit of sacrifice and most of all, a great deal of love for what you are doing.

Have you got what it takes to succeed?

## OUR COMMITMENT:

Team *Preksha* is made up of a diverse variety of teachers who are unified by the excitement they share about education & an audacious passion for teaching. Every student that walks into *Preksha's* classroom will be a recipient of our dedicated efforts, aiding them in evolving to a better self. Promoting their curiosity, creativity, determination and self-independence is a part of this process where we nurture academic & personal growth by furnishing a challenging and in turn, an enhancing environment.

## EDUCATION:

*Education is the most powerful weapon with which we can change the world.*

Often when iterated about how a pen is mightier than the sword, we portray the importance of the pivotal role that education plays in an individual's life. Education is more than just marks, certificates, ranks or anything materialistic for that matter. Education isn't limited to the syllabus in the textbook or an exam pattern to be followed. In today's world where there are numerous ways through which one can be trained well, prepped up for an exam and pushed next in the queue... the true sense of Education can be perceived only when – you are able to understand what you are learning, why are you required to learn that, the benefit it brings in and ultimately, enjoying every bit of the journey.

Let's join hands to make this journey a beautiful one!

*The road ahead is  
simple, it is only with  
your dedicated efforts that  
you pave your path to excellence  
...marks and ranks would just be  
the by-products!*
